

## HotShots Youth Sports Gym Monitor

HotShots Youth Sports appreciates the use of Vancouver and Evergreen School District facilities for league use. As such, it is HotShots policy that each team provide one adult volunteer to be designated as "Gym Monitor" for league practices and games.

The Gym Monitor's duties include:

- Supervision of non-participating children. League contracts are for gym and restroom use only. Children must not climb on/around bleachers, on stages, or go into other areas of the school building. Parents need to keep non-participating children under their close supervision.
- Supervision to prevent food and drink (except water bottles) in the gym. If their team brings "after game treats", they must be distributed and consumed outside the premises.
- Postgame clean-up. Monitors should make a quick pass around the gym to pick up loose water bottles, or other items left behind by their team/spectators.
- Watching for smokers. Smoking on school property (including school parking lots) is illegal in the state of Washington. Monitors need to be sure that this law is being followed.

Teams who violate these policies (even once!) may be subject to school district sanctions, including the loss of their practice gym.

HotShots appreciates the cooperation of our coaches in helping us to be good stewards of our schools. THANK YOU!!

-----

I understand that I am responsible for assigning an adult volunteer to be the Gym Monitor for our team during practices and games. I also understand that failure to do so, or failure to comply with the district policies could result in the loss of our practice gym.
